Technology + Business: 15+ years from engineer to executive leadership

+976 9905-4359 uuganbayar.ch@gmail.com Ulaanbaatar, Mongolia

EXECUTIVE SUMMARY

Technology executive with 15+ years of experience, progressing from software engineer to CEO. Currently leading a 25-person technology organization with full P&L, product strategy, and people responsibility. Deep domain expertise in online travel platforms (OTA) and healthcare IT, including 4 years building hospital information systems and national e-health projects. Hands-on record in AI, cloud infrastructure (AWS), and cybersecurity at enterprise scale. Currently completing an MBA.

KEY ACHIEVEMENTS

- **Platform builder:** Architected and launched an online travel agency platform with Amadeus GDS and Hahn Air interline ticketing integration — one of the few systems of this class in Mongolia;
- **Organization builder:** Built organizational structure, career ladders, pension/savings program, and performance systems for a 25-person engineering organization, materially improving retention;
- **Deal leadership:** Initiated and led B2B technology contracts in the ₮200–300M range, owning pricing strategy, legal terms, and risk assessment end-to-end;
- **Cybersecurity:** Led response to a major AWS cloud security incident: achieved 100% financial recovery, instituted blameless post-mortem culture, and drove OIDC federation architecture to eliminate long-lived credentials;
- **AI & digital products:** Directed development of Mongolian-script OCR, AI-based diagnostics, and K-12 educational tablet products at portfolio level.

PROFESSIONAL EXPERIENCE

Chief Executive Officer | SteppeLink — Technology & EdTech

May 2024 – Present

- Full ownership of strategy, finance, and operations for a 25-person organization; manage annual budget and technology investment ROI;
- Lead the ESAN product ecosystem: K-12 educational tablet, Mongolian-script OCR/AI, plagiarism detection platform;
- Established comprehensive people-development systems: career ladders, pension/savings program, capability programs;
- Upgraded AWS cloud infrastructure and cybersecurity policy toward international standards.

Chief Technology Officer / Advisor | SteppeLink

Apr 2024 – Jan 2025

- Owned technology strategy, architecture decisions, and engineering leadership; transitioned into the CEO role.

Founder & CEO | Flynk Tech — Skytrip Travel Platform

[year] – Present

- Built an OTA platform with Amadeus GDS and Hahn Air interline (HR-169) integration; offering it as a white-label B2B product to Mongolian travel agencies;
- Own product pricing strategy (markup/service-fee model), Ebarimt POS 3.0 tax integration, and the full sales process.

Director of Product & Business Development | Tapatrip — Online Travel Agency

Apr 2021 – Oct 2023

- Led product strategy and business development for an online travel platform, including international partnerships;
- Managed cross-functional teams of up to 40 people using Agile/Scrum.

Software Developer → Manager | Mobicom Corporation

Jun 2018 – Apr 2021

- Progressed from developer to team manager at Mongolia's largest telecom; delivered enterprise-scale systems.

Healthcare IT Experience | National E-Health Project · State Hospital (ШҮҮГТЭ)

Feb 2014 – Jun 2017

- National E-Health Project — Senior Software Engineer: developed national digital health systems (2016–2017);
- State Central Hospital — Head of IT Department: hospital IT infrastructure and team leadership (2015–2016);
- State Central Hospital — Senior Engineer: hospital information systems and equipment reliability (2014–2015).

Senior Software Engineer | Woovoo LLC

Jun 2017 – Jun 2018

- Product development and system architecture.

EDUCATION
