

EXECUTIVE SUMMARY

Technology executive and former SteppeLink CEO with 12+ years of experience, progressing from software engineer to CEO. Led strategy, operations, product, and people for a 30-person technology organization, with full P&L, product strategy, and people responsibility. Deep domain experience in online travel platforms (OTA) and healthcare IT, including hospital information systems and national e-health projects. Led enterprise initiatives across AI, cloud infrastructure (AWS), and cybersecurity. Currently completing an MBA. Available now for CTO, Head of Technology, or Technology GM roles.

KEY ACHIEVEMENTS

- ▶ **Platform builder:** Architected and launched an online travel agency (OTA) platform with Amadeus GDS integration — one of the few systems of this class in Mongolia.
- ▶ **Organization builder:** Built organizational structure, career ladders, an employee savings benefit, and performance systems for a 30-person engineering organization, improving retention.
- ▶ **Deal leadership:** Initiated and led B2B technology contracts, owning pricing strategy, legal terms, and risk assessment end-to-end.
- ▶ **Cybersecurity:** Led response to a major AWS cloud security incident — secured recovery of incident costs, instituted blameless post-mortem culture, and drove OIDC federation architecture to eliminate long-lived credentials.
- ▶ **AI & digital products:** Directed development of Mongolian-script OCR, AI-powered plagiarism detection, and K-12 educational tablet products at portfolio level.

PROFESSIONAL EXPERIENCE

Chief Technology Officer → Chief Executive Officer · SteppeLink — Technology & EdTech Apr 2024 – Jul 2026

- Joined as CTO/Advisor overseeing technology strategy, architecture, and engineering leadership; transitioned into the CEO role in May 2024.
- Full ownership of strategy, finance, and operations for a 30-person organization; managed annual budget and technology investment ROI.
- Led the ESAN product ecosystem: K-12 educational tablet, Mongolian-script OCR/AI, and plagiarism-detection platform.
- Established people-development systems: career ladders, employee savings benefit, and capability programs.
- Upgraded AWS cloud infrastructure and cybersecurity policy toward international standards.

Founder & CEO (part-time / advisory) · Flynk Tech — Skytrip Travel Platform 2025 – Present

- Building an OTA platform with Amadeus GDS and Trip.com integration, offered as a white-label B2B product to Mongolian travel agencies.
- Own product pricing strategy (markup/service-fee model), Ebarimt POS 3.0 tax integration, and the sales process.
- Run alongside an active search for a full-time CTO / Head of Technology / Technology GM role.

Director of Product & Business Development · Tapatrip — Online Travel Agency Apr 2021 – Oct 2023

- Led product strategy and business development for an online travel platform, including international partnerships.
- Managed cross-functional teams of up to 40 people using Agile/Scrum.

Software Developer → Manager · Mobicom Corporation Jun 2018 – Apr 2021

- Progressed from developer to team manager at Mongolia's largest telecom; delivered enterprise-scale systems.

Senior Software Engineer · Woovoo LLC Jun 2017 – Jun 2018

- Product development and system architecture.

Healthcare IT Experience · National E-Health Project · State Central Hospital (ШҮҮГТЭ) Feb 2014 – Jun 2017

- National E-Health Project — Senior Software Engineer: developed national digital health systems (2016–2017).
- State Central Hospital — Head of IT Department: hospital IT infrastructure and team leadership (2015–2016).
- State Central Hospital — Senior Engineer: hospital information systems and equipment reliability (2014–2015).

EDUCATION

MBA, Business Administration
University of Finance and Economics — GPA 3.5
2023 – Present

B.Sc., Information Technology
Mongolian University of Science and Technology
2006 – 2011
